

Visiting the Year 6 Science Fair

In Week 6, there will be a Science Fair.

The year 6 student have made science projects.

My teacher will tell me when our class will be visiting the Science Fair.

When it is time for our class to visit the Science Fair, I will line up with my class and walk to the undercover area.

I can walk around the undercover area and look at the all the different projects.

The year 6 students will talk about their projects. I can ask them any questions that I may have.

I will get a counter and can put it in the cup of my favourite project. The person with the most votes will win the Student Choice award.

My teacher will tell us when it is time to line up and walk back to class. If I have any questions, I can ask my teacher.
